LIST NO. 23

CATTLEYA & LAELIOCATTLEYA.

Fine, healthy, vigorous plants; freshly potted and established. A large range of plants, 4 to 6 bulbs, 1 lead, £1/5/- each. 5 and 6 bulbs, extra good plants, £1/10/- each.

BRASSOCATTLEYA.

A good range, excellent plants, fine types of flowers. Price £2 each.

We carry an extensive stock of Cattleya and all allied genera, in fine plants, well grown and healthy. Good forms of blooms, and in the more expensive plants can be found some of the finest known. We will be pleased to forward a special quote on application. Prices are from £3 to £10.

CATTLEYA.

Our jungle importations for this season have been extensive, and include the following varieties: Gigas, Gigas var. Sanderiana, Trianae, Mendelii, Gaskelliana, Mossiae, Superba, Amethystoglossa, and Leopoldii. The majority of these are partly established, and will be ready for delivery at an early date. Price is £1 to £1/10/- each, according to size; with the exception of Amethystoglossa which is priced at £1/15/- to £2/10/-, according to size.

LAELIA ANCEPS.

Fine plants, 4 to 6 bulbs, 7/6 each, larger plants 10/6 each. Specimen plants, 2 and 3 leads, many bulbs, 25/- each.

LAELIA PURPURATA.

Fine jungle plants, ready for delivery January or February, 15/- to 25/-.

U. S. Department of

DENDROBIUM ATRO-VIOLACEA.

This is one of the most decorative Dendrobium. Sepals and petals creamy white (in some varieties pure white) and profusely spotted with dark purple. Lip violet inside and green outside; three lobed. Spikes terminal, erect pseudo bulbs, tapering downward with 2 or 3 stout leathery leaves. It produces flowers from the old bulbs, as well as the new. Very easily grown.

Plants with 4 and 5 bulbs, up to 12" high, 1 lead, 15/- each; 4 and 5 bulbs, up to 15" high, 1 lead 20/- and 25/- each; 4 to 6 bulbs, up to 18" high, 1 lead, 25/- each. Specimen plants with 10 or more bulbs, up to 12" high, 2 or more leads, 30/- to £2/10/- each. No extra charge is made for potted plants; teak baskets 1/6 extra.

DENDROBIUM PHALAENOPSIS Variety SCHROEDERAE.

Excellent plants, potted and growing. 3 to 5 bulbs, 7/6 to 10/- each, according to size of plant.

DENDROBIUM SUPERBUM Variety HUTTONII

This variety comes in various forms. Some of the blooms are almost white with magenta markings, and some almost rose magenta or purple with markings of white. It is a pendulous variety and thrives best in a hanging position. 4" teak baskets are best, but they can be grown in any other type, but must be rammed tightly into the basket using very little Sphagnum Moss with the Osmunda. They require an ample supply of water. During the past few years this variety has become extremely rarer and so we are able to offer only a limited quantity of plants.

Healthy plants, 4 and 5 bulbs, up to 10" and 12" high, 1 lead, 12/6 and 15/- each; 4 and 5 bulbs, up to 20" high, 1 lead, £1/5/- each; 4 to 6 bulbs, up to 30" high, 1 lead, £1/10/- to £2 each. Extra fine specimen plants up to £3 each. Teak Baskets 1/6 extra.

LIST NO. 26.

LIBRARY
RECEIVED

U. S. Department of Agriculture

LYCASTE.

A very simple species to cultivate and much admired, for the various colour effects and long life of the blooms. The bulbs, according to the variety are from $1\frac{1}{2}$ " to 6" high. Flower scapes are numerous, and produce 1 flower from each scape. In most cases the flowers are large and somewhat stiff in appearance, but very handsome.

LYCASTE CANDIDA.

Flowers 3" or more across; sepals pale green with a few rose markings, petals white flushed with rose. Free flowering variety. 3 and 4 bulbs, 1 lead, 12/6 each.

LYCASTE CANDIDA Variety LAWRENCEANA.

Sepals reflexed, green with faint red marking down centre; petals white with rose tints. Centre lip similarly coloured. Smaller bulbed variety. 3 to 5 bulbs, 1 lead, 12/6 each.

LYCASTE LEUCANTHA.

Large flowers, sepals green, shaded with brown, petals yellowish-white, lip pale yellow. £1/5/-.

LYCASTE SKINNERII.

These are to arrive shortly, but owing to the war conditions we are unable to specify the date of arrival. Orders will be booked, and plants forwarded on immediately they are in condition.

Plants with 3 and 4 bulbs 8/6 each. Selected varieties £1 each, in stock.

LYCASTE (sp.).

These are either Gigantea or Costata. Both species have large flowers, the former with sepals and petals of olive green, and the latter ivory white, with the lip of the front lobe fringed. Partly established and should be ready for delivery early 1940. Price 12/6 to £1, according to size.

1941 TAYLORS ORCHIDS, 5 Acacia Str., Belmore.

LIST NO. 27

DENDROBIUM

Fortunately for this season, we are able to reduce our prices for collections for beginners. We can offer 6 fine plants potted in the best material for 21/-, freight or postage extra. This selection includes only those varieties which have fine flowers and none of which are termed of "Botanical Interest". All plants are correctly labelled with a permanent label.

In most of the species named below we have fine specimen plants. These are basketed in the best compost and will produce many sprays of blooms. The majority of the specimens are fully established, and prices are from 7/6, 10/- and 15/- each.

We shall on request be pleased to compile lists.

If we are advised of the conditions under which cultivation is intended, we will be able to supply plants which will be suitable.

Atro-violaceum, very rare	12/6 & £1-

insigne, 2 to 4 growths, 3/6; larger plants	5/-
Villosum, 2 to 4 growths, 3/6; larger plants	5/-
„ var Aureum, 2 to 4 growths, 5/-; larger plants	6/6

CYPRIPEDIUM SPECIES & HYBRIDS

The better and rarer species are very fine forms, and some most peculiar yet handsome.

Callosum Sanderae	£1/1/-
insigne, var. Sanderae	10/-, 15/- & £1
„ var. Harefield Hall	12/6 & 15/-
„ var. The Queen	£1
Curtisii, beautiful foliage, semi-established	6/6
Praestans, very fine and rare	15/-
Rothschildianum, very rare	£1/10/-
Transvaal, very rare	£1/10/-
Sublaeve, very rare	10/-
Lowii	7/6
Haynaldianum	10/-
Philippinense, small plants	£1

The majority of the tropical Cypridium have only 1 growth and making a new one.

We carry a large range of Cypridium hybrids, prices ranging from 5/- to 7/6 each for Leea-num varieties, and Harrisianum in varieties from 6/6 to 10/- each. Other hybrids in a large range of colours and forms from 10/-, 15/- and £1 each.

Also a range of the finer Hybrids in recognised named varieties, up to £2 and £3 each. Lists on application for these.
